

U4A2

Performance Outcome

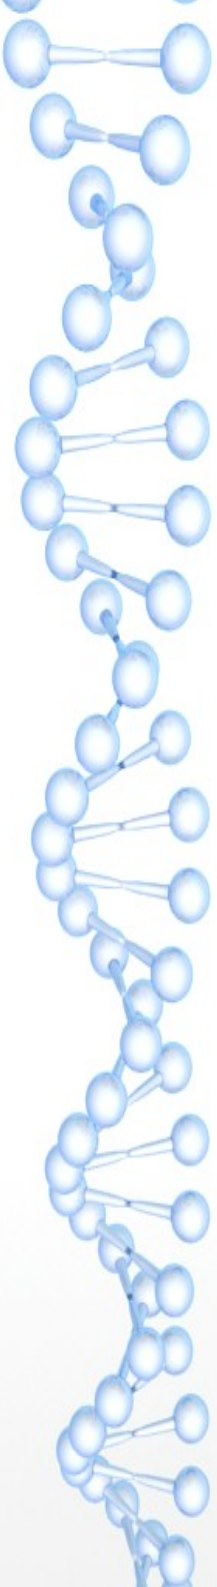

Candidates examine two popular international tests--the PISA and TIMMS and analyze their strengths and weaknesses

Scope

- Read assigned articles and respond to questions
- Create sharable notes on the platform of your choice
- Propose an alternate assessment method for measuring the strength of education systems around the world in regards to teaching 21st century skills. Include:
 - Objective(s): what will the assessment measure
 - Item type: a minimum of 5 item types with one sample question for each type
 - Objectivity: plans for accounting for differences in language, culture, etc.
 - Data: how data will be aggregated and disseminated locally and internationally—to whom will the data be available and how?

Deliverables

Notes

- Be creative when creating alternative assessment
- Start with the learning objective and concept for assessment
