

# U4A2 - Training for Cultural Intelligence

## Performance Outcome

Candidates synthesize the characteristics of culturally responsive and intelligent schools and assess their own school's culturally responsive characteristics

# Scope

- Read and reflect on the two required articles
- A discussion of which of the six modules in the Meyers article you may or may not use and why

# Deliverables

A written report not to exceed 1,000 words which includes

- Outline of key findings of the Hanover report
- A review of the 6 modules included in the Hanover report
- ~~A review of programs from at least two additional schools with an eye towards what elements of their programs you might use and others you would not~~

# Notes

- Rather than Googling other schools and discussing their programs, discuss which of the Meyers modules you would use and why, or how you might adapt them
- “a review of the 6 modules included in the Hanover report” should read “a review of the 6 modules included in the Meyers report”
- The Hanover report can be found at <http://url.cailab.net/3e> and I'll attach it to an Email
